STAT

Dear [Redacted]

STAT

As Chairman of the JCS-PSS Working Group for Ground Intelligence Photography, it is my pleasure to extend our sincere thanks for the hospitality accorded our group by [Redacted] during the period of 6 and 7 November. Your contribution to our meetings during this period contributed in large measure to the success of our visit to the [Redacted] area. We are also most grateful for the very fine dinner of 6 November at which [Redacted] was our co-host with [Redacted]

The technical session presented to the Working Group on the afternoon of 7 November presented many items of real interest to us and I can only regret that time would not permit a more comprehensive discussion of the various topics so pertinent to our group interests. Based on the individual responses of the members of our Working Group I am certain that many of them will be contacting members of your staff in order that they may explore the implications of your work as it relates to their specific tasks and interests.

You, and the members of your staff are to be complimented on your imaginative approach to research problems and on your valuable contribution to our national need for scientific progress.

May I prevail upon you to relay this expression of appreciation to [Redacted] and your other associates who made our visit to your company such a complete success?

STAT

Very truly yours,

Arthur C. Lundahl
Chairman, JCS-PSS
Working Group for Ground
Intelligence Photography
